Docket No. A2011 - 54

PRC Form 61 filed October 4, 2011

Filing of Reply Brief in Response to Answering Brief (CFR 3001.115 (d))

Enloe Post Office
Enloe, Texas 75441

This second filing addresses additional facts to be considered in regard to the proposed closing of the Enloe Post Office. (1) FY 2011 retail sales amount to \$18000.00 plus as compared to previous years. (2) The factory located in Enloe is starting to pick up sales and it is anticipated window transactions for the Enloe Post Office will increase more due to this renewed business. (3) The community of Enloe has no current rural route and adding Enloe to a route out of Cooper would increase the cost of closing the PO at Enloe and NOT be a savings for the Postal Department as previously suggested. Also The Enloe PO is already getting customers from Lake Creek and Ben Franklin as these neighboring facilities are affirmed for closing. It is also questionable as to whether the Cooper PO could accommodate boxes enough to service those persons needing rental boxes, even at increased rates, with the closing of other area POs (4) The Cooper PO WILL NOT be made handicap accessible as it is designated as a Historical Building, and the Enloe PO is already accessible to those having special needs in order to use the facility for sending and receiving mail.

These facts are respectively submitted for your consideration.
